

# 3X Large Magnifying Glass with [10 Anti-Glare & Fully Dimmable LEDs]-Evenly Lit Viewing Area-The Best Lighted Magnifier for Reading Small Fonts, Low Vision Seniors, Macular Degeneration, Inspection Review-2021

[Read Customer Reviews](#)

**RECTANGULAR SHAPES THE WAY YOU NATURALLY READ:** The rectangular lens is especially design to simulate the way we naturally view things from left to right, the magnifying lens covers large viewing area without having your hands move all the time, lens is measured 4.35"x 2.7" and magnifies up to 300%.

**CRYSTAL CLEAR ACRYLIC LENS:** Made out of optical grade acrylic which is lighter and more scratch-resistant & shatterproof than glass while provides the same clarity level. Magnifies up to 3x(300%) without optical distortion. Optimal to enhance reading and viewing very fine details in books, newspapers, magazines, photographs, maps, electronics, miniatures, jewelry, pill bottles, medications, hobbies, models, and crafts of all kinds.

**REDUCE EYE STRAIN & DIMMABLE LIGHTING :** This led magnifier is clinically proven to be ideal for anyone who strains their eyes to see words on a page because it magnifies and provides light without glare. The roller dimmer allows you to easily adjust the brightness level(peaks at 600 lumens) with the tap of a finger to achieve the perfect lighting for various tasks.

**LIGHTWEIGHT & ERGONOMIC HANDLE:** Thanks to the special design premium lighter lens it only weighs 6.5oz, in addition, the handle of this LED magnifier is ergonomically designed to grip/hold comfortable for most hands, making it ideal for anyone who loves to read for longer period of time.

**10 ENERGY EFFICIENT & LONG LASTING SMD LEDs:** Our SMD LEDs are powered by 3 AAA batteries(Not included) and are designed to last more than 100,000 hour. They provide more evenly lit viewing area, our LED lighting will last for more than 20 years without burning out or overheating. Save money and energy while enjoying long lasting bright light.MagniPros is the brand you trust for quality low vision aids. Established in 2014, our mission is to bring excitement back to the world of optics, lending a new face to something upon which we so heavily depend. We believe sight should not be a luxury for the few; instead, quality optics should be available to all. Join us in giving an opportunity to all those in need of optic enhancement and let us steer you towards our perfect vision.

4.25"(108mm) x 2.65"(68mm) Viewing Area : 3X Magnification- Magnifies up to 300% 3X lens focal length: 5.25"(140mm) Fully Adjustable brightness by dimmer switch: From 0 to 600 Lumens Lightweight- Only weighs 5.5 oz without batteries 10 Energy Efficient Ultra Bright LED lights Requires 3 AAA batteries (Not included) Package includes a lens cleaning cloth & storage pouch Lens is made of Optical Grade Acrylic Premium unbreakable ABS material Alternative use: flashlight Comfortable to Hold Weight is evenly distributed. At 5.5 oz, it's the lightest LED page magnifier for its size - no more arm fatigue!

Tough Construction Portable and tough enough to take with you wherever you go. The durable construction of the lens and sturdy handle means even kids can use it safely for science experiments.

Large Viewing Area Magnifies Up to 300% with Crystal Clear Image

Simulates the Way We Naturally Read

The rectangular lens covers large viewing area(4.25" x 2.65")which minimizes your hand movement to reposition magnifier all the time as opposed to most of other smaller magnifiers.

Shatterproof & Scratch-Resistant

Magnifying lens is made of scratch resistant & shatterproof acrylic which is lighter and more shatter-resistant than glass lens while provides the same clarity level.

Lightweight & Sturdy

It is constructed out of unbreakable ABS, at just over 5.5 oz making it the lightest LED reading magnifier in it's size.

Provides Evenly Lit Viewing Area without GLARE

Magnifies Small Fonts up to 3X(300%)

Fully Adjustable Brightness Level 0% -100%

Highest Grade Acrylic Lens provides Crystal Clear Image

Designed for low vision, aging eyes and macular degeneration.

### 10 Fully Dimmable & Anti-Glare LEDs- Provides More Evenly Lit Viewing Area

These SMD LED lights are 30% brighter than traditional LEDs while consume 50% less power/energy, therefore, a new set of batteries will last twice longer. These LEDs are powered by 3 AAA batteries(Not included), designed to last for 100,000+ hours which is equivalent to 20 years without Burning out or Overheating. Brightness level can be adjusted from 0 to 100% with built-in dimmer switch located at the center of magnifier.

### The Most Advanced Lighting System

Our advanced technology semi-transparent reflector which covers all the LEDs in the back of magnifier prevents glare to your eyes, and in the meantime directs lighting onto designated area which in turn creates more evenly lit viewing area for reading in dim condition.

### Bonus Storage Pouch & Cleaning Cloth

Each set comes with a premium storage pouch for you to store your reading magnifier when not in use and a Cleaning cloth to wipe out any dirt before use.

Warm Tip: Put the led reading magnifier in storage pouch to avoid accidental scratches and dirt to the lens.

### Read Everything in Perfect Clarity

No more struggling to read the tiny print on those coupons and pill prescriptions. Now you can read everything in perfect clarity. Our reading magnifiers are the perfect companion to help you enjoy your morning paper, read prescriptions and enjoy day to day life again. You can't go wrong with the BEST LED Reading Magnifier on the market!
