Wearing Experience from Customers

ChaosnMotion73:

I ordered this for our hiking excursion for Table Rock trail in Greenville, SC. I am 5"3, around 150 lbs, short waisted and ordered in size large. They fit but are baggy in the legs, so they were good for all of the inclines, stairs and climbing that we did. It was about a 6 hour hike tround-trip and I was comfortable the whole time.

Megan McDowell:

Great Exercise Pants for Curvy Women

These pants are great for women with thick thighs and a bubble booty. The drawstring waist takes care of any gap, but the elastic waistband does great on it's own for hugging your waistline and not having gap.
