Q: my daughter 12 old y ..what size should consider ?

A: My 10 year old is tall for her age and slim. She is just starting to wear 10/12 size in most clothing, so we tried the 10-13 size, and it fit perfectly. For a 12 year old of average growth the 10-13 might work.

Q: What is the fabric content,How is the feel of the fabric?

A: 35% Cotton 65% Polyester,very soft and comfortable.

Q: Do they run smaller in size or they are the right fit for the age mentioned in the size chart ?

A:they are right fit for age
