If you are ever concerned about taking your gaming experience to the next level, don't miss out.

KINVOCA C25 Joy Pad Controller

Exceed expectation - adding macros and turbo

Introducing upgraded version of Joypad. Besides full set of buttons, KinvoCA C25 controller adds macro and turbo function!

Premium material with rigorously tested. Streamlined design fits just right in your hands. You can enjoy full-sized controller in handheld mode, or hold them horizontally or vertically in tv mode.

Take this controller with you while you play all your favorite games on the go.

Programmable Macros & Turbo

Motion Control & Dual Shock

D-Pad, Concave Joystick, Enhanced Triggers

Rechargeable 300mAh battery with Type C Port

Plug and Play

Features

Programmable Macros

Customizable and memorable assign button on each controller, record combination and interval time simultaneously. (Notice: assign to buttons on the same half only)

Turbo Function

25 shots/s, convenient to set or clear. Read instruction before use.

Motion Control

Contains one accelerometer and one gyroscope in each controller, provides precise aiming or movement, perfect for games like Zelda.

Dual Vibration

Built-in dual motor provides excellent shock feedback (Notice: feel free to turn it off in controller settings)

Concave Joystick

Concave analog sticks with moderate height, make you feel natural to move your thumb and provide more accurate movement.

Enhanced Trigger

Suitably large and responsive triggers, much easier to manipulate.

NOTICE: PLEASE CONTACT SELLER FOR RESEND IF YOU DON'T RECEIVE A GRIP
MUST KNOW

NO NFC OR IR SENSOR DOES NOT FIT IN ORIGINAL CHARGING GRIP

How to Connect

Initial Pairing: method one - attach to console; method two - select "controllers - change grip/order", hold sync button for 3 seconds
Reconnection: hold screenshot/home for 3 seconds
