

LITOM Solar Pathway Lights Outdoor, 3 Lighting Modes Wireless Solar LED Landscape Lights, IP65 Waterproof Solar Powered Garden Lights for Ground Lawn Patio Yard Driveway Deck Walkway 4 Pack Warm White Review-2021

[Read Customer Reviews](#)

3 Optional Lighting Modes-Warm White Low Light Mode(12hrs/13LM) / High Light Mode(6hrs/32LM) / Gradual Breathing Mode(10hrs/0-32LM). Compared with the single-mode products on the market, LITOM solar pathway light has 3 different brightness modes to meet your different decoration needs. NOTE: The lighting duration shown is the result of laboratory tests for 4 hours charging time at ideal sufficient sunlight, which is for reference only.

Higher Efficiency & Longer Lasting Using large-size monocrystalline silicon solar panel & built in 18650 lithium rechargeable battery(1200mA), the charging performance of LITOM solar landscape path light is 6-8 times higher than that of most products using Ni MH batteries(600mA) in the market. IP65 Waterproof Performance Made of durable corrosion resistant ABS plastic, LITOM waterproof solar powered pathway lights can withstand most weather conditions like sunny, rainy, frost, sleet and light snowy days for multi-season outdoor use. Perfect for lining your home's pathways, lawn, driveway, walkway, garden, path, backyard, decks, patios, balcony, parterres, villas or everywhere outdoor.

Multiple DIY Assemble Styles LITOM solar LED landscaping path lights can provide a variety of collocation ways with its rich accessories, and the pattern effect of this solar powered pathway light is so amazing and attractive which can create a warm and cozy mood when you come back.

More Humanized Details The external key switch design can solve the problem of inconvenient switch operation on the market products (built-in paddle and need to open the lampshade first); LITOM solar powered pathway light has memory function - which mode was set at the previous night and the next day automatically defaulted to the same mode.

Energy Saving & Safe LITOM outdoor wireless solar landscape garden lights can automatically detect brightness changes of the external environment. When the brightness is low enough to require illumination, it will automatically switch from energy storage mode to lighting mode without motion detection (Auto on at night / Auto off at sunrise).

Supreme Quality Ensured This new outdoor LED solar powered landscaping pathway lights have obtained appearance patents and certifications issued by FCC, CE, RoHS, MSDS, UL, WEEE, UN38.3, etc. LITOM adheres to the tradition of independent R & D and design, and will consistently be committed to providing cost-effective and personalized green illumination products with our innovative spirit, first-class product quality and high standard serving system for customers around the world. LITOM Outdoor Solar Landscaping Pathway Lights " Warm White 4 Pack LITOM Wireless 3 Lighting Modes Solar Landscaping Path Lights

FAQ:

How many lumens are each solar garden light? How long will this solar pathway light turn on at night?

LITOM outdoor solar pathway light has 3 lighting modes: Low Light Mode(12hrs/13LM) / High Light Mode(6hrs/32LM) / Gradual Breathing Mode(10hrs/0-32LM).

What's the color temperature of these solar path lights?

LITOM solar LED landscaping path lights' color temperature is 3200K Warm White.

What is the waterproof grade?

After many tests by related quality department, this solar lights has IP65 waterproof performance. Made of durable corrosion resistant ABS plastic, LITOM solar LED landscaping path lights can withstand most weather conditions like sunny, rainy, frost, sleet and light snowy days for multi-season outdoor use.

Could I install the lights under the shady area? Will the solar lights work properly?

Yes, the LITOM solar pathway lights can still work normally even if the charging condition is not ideal, but in order to prolong the service life of the battery and maximize the lighting effect, please install the solar light in a place where the sunlight can shine directly and make the solar garden lights full of electricity power.

Warm Tips:

1 Please clean the dust and other covers off the solar panel regularly to allow the batteries to recharge better.

2 The using position should be far away from other light sources as far as possible, otherwise the solar pathway garden lights may not light up normally.

LITOM Waterproof Solar Powered LED Landscaping Pathway Lights Outdoor

Specifications:

Light Color: Warm White

Waterproof: IP65

Lighting Mode: Stay On / Respiratory gradual change

Battery: Lithium 18650 5V 1200mAh

Solar Panel: 0.75W, Monocrystalline Silicon

Charging time: 4-6 Hours under full sunlight

Max. Working Time: Low Light Mode(12hrs) / High Light Mode(6hrs) / Gradual Breathing Mode(10hrs)

Wireless Solar Powered Landscaping Walkway Lights

3 Lighting Modes Available:
