Our story

How we got our start?

We started Pacific Pups Products to support our very own non-profit animal rescue, Pacific Pups Rescue. What better way to support the homeless pets we rescue than making high quality & safe, yet affordable, products for you & your fur babies to enjoy!

What makes our product unique?

We design all of our own products, and we safety test and durability test them all - we only want to provide products we'd give our own rescue dogs! One of our toy lines, The Rescue Rovers, is based off of actual dogs we've rescued and their real life stories!

Why we love what we do?

Nothing makes us happier than a happy dog! We love seeing dogs enjoying our toys, and knowing that toy you purchased for your pup helped us save another dog's life from a high kill shelter. The sales from our toys is what allows us to continue saving lives!
