[Read Customer Reviews](#)

THINKPRICE tongue cleaner helps you effectively maintain a cleaner tongue daily which contributes to overall better dental hygiene. It helps remove the gunk from your tongue that might have inhabited it. It leaves your breath feeling fresh so that you're ready to face your daily activities. The tongue cleaner is made of high-quality environmental material, 100% BPA Free, durable, safe, healthy and no smell. With this, you can be sure that the tongue cleaner won't get damaged right away.

The tongue scrapers come in a set of 4 pieces and with a travel handy case and user manual so that you can easily replace one when it's time. You can even give one to each of your family members so it's truly a great value for money.

Ergonomics design specifically for the US market. Easy to use for both adults and children, hassle free! DENTIST HIGHLY RECOMMEND!! Suitable for morning and evening use! !

Maintain oral health, clean off the Sundries, enhance your sense of taste. Good begins with a smile and fresh breath. Great Tongue Health GIFT for family, birthday, marriage, thanksgiving and valentines day! What is tongue scraping?

THINKPRICE Tongue scraping is a fast way to remove extra particles including the ones that cause bad breath from the surface of your tongue.

Why you should scraper your tongue?

90% of Bad Breath Comes From a Dirty Tongue.

Tongue cleaning is an important hygienic practice that helps in removal of the gunk from the surface of the tongue. Tongue cleaning can help us with a variety of health issues by boosting your immune system, helping in digestion and thus, improving your dental health.

Suggested Use

To Use:

Place cleaner on tongue as far back as is comfortable. Gently glide the cleaner forward, "scraping" off unwanted matter. Repeat 3 or 4 times. Rinse well. Use twice daily for best results

Using a tongue scraper can help remove this buildup of particles, as well as:

Reduce bad breath. Improve your sense of taste. Improve the appearance of your tongue. Improve overall health

Note:

If you're worried about gagging, you may find it helpful to start at the middle of your tongue. You can gradually start from farther back as you get used to scraping. You should be mindful of how much pressure you're applying. Be gentle enough to avoid harming your taste buds or breaking the skin. Normally replace the tongue scraper every 2 to 4 months. Suitable for adults and children.
