[Read Customer Reviews](#)

Size 9 x 13 Inches; Extra Thick 0.8 Milliliters; Compostable Leak Proof Doggie Waste Bags; 270 Bags (18 Refill Rolls, 15 Bags Per Roll).

CERTIFIED COMPOSTABLE: Certified OK Compost Home & Seedling under European standard by VinÅ§otte and TÃ¼v Austria. OK Compost Home certification is the only certification that guarantees 100% BIODEGRADABILITY IN HOME COMPOSTING facilities. Seedling is the European certification to use in commercial and municipal composting facilities.

HIGHEST BIOBASED CONTENT: UNNI Compostable Bags are made from plant starches and contain NO polyethylene. Bags are durable, nontoxic, easy to use and great for the environment.

USAGE & STORAGE: Avoid excessive heat; store Compostable Bags in a cool, dry place and use within one year of purchase. Purchase only as many as you can use in 9 months.

UNNI compostable bags are the ethical choice for a cleaner environment and an ECO-FRIENDLY future. Thank you taking care of our planet for FUTURE GENERATIONS by replacing plastic with our sustainably manufactured, compostable bags. Together, U â€™nâ€™ I make Earth a better place. At UNNI, we are passionate about making Earth a better place for everyone.

A sustainable, green future begins with U 'n' I making smarter choices every day.

We offer a wide range of 100% compostable products that meet the most stringent standards for biodegradability and environmental friendliness.

Our compostable garbage bags are made from plant materials and have received European OK Compost Home certification, so they are 100% compostable even in home composting units.

These bags have also been awarded US Biodegradable Products Institute (BPI) certification under the ASTM #6400 standard, and can be composted in municipal, industrial, and backyard facilities.

When we come together in "Unni-ty" to give future generations a better world, anything is possible!

Biodegradable Products Institute (BPI)

European OK Compost Home Certified

OK Compost Home Denotes certification by TÃœV Austria as 100% compostable in backyard and home composting units. Based on European standard EN 13432, OK Compost Home is one of the worldâ€™s only home composting certifications.

Together, U â€™nâ€™ I make Earth a better place.

Thank You for caring for our home!

Biodegradable Products Institute (BPI) Denotes certification by the Biodegradable Products Institute for use in commercial and municipal composting facilities, in compliance with U.S. standard ASTM D6400. 100% Compostable.

Seedling Denotes European certification for use in commercial and municipal composting facilities, in compliance with the European standard EN 13432. 100% Compostable.

UNNI compostable bags are the ethical choice for a cleaner environment and a green future.

Thank you taking care of our planet for FUTURE GENERATIONS by replacing plastic with our sustainably manufactured, compostable bags.
